Subject: RE: 10 Mile Drain Site - Saint Clair Shores, MI

Thank you for your message. EPA is still collecting comments, such as yours, which will help the Agency in finalizing its decision on the remedy later this summer / early fall.

Subject: 10 Mile Drain Site - Saint Clair Shores, MI

Hello Heriberto,

My wife and I are home owner's on Bon Brae Street, east of Harper in Saint Clair Shores MI where the 10 mile drain site is located. **I am writing this to express our interest in proceeding with excavation of of the contaminated soil in both residential and commercial properties in the area.**

We have put considerable research and thought into this decision and although we would prefer to leave our and our neighbor's yards intact (if they are in-fact contaminated) we strongly believe excavation of the contaminated soil is the correct and necessary action to take for many reasons.

Please feel free to contact us if you have any questions.

Sincerely,
